- Camera Selection

Equipped with a 3.5-type LCD screen

The AW-RP60 is equipped with a 3.5-type LCD screen to deliver a GUI menu where the information you need is provided at a glance for intuitive and quick camera control.

New Joystick with enhanced operability

The new joystick supports smooth pan and tilt operations and ensures accurate capture of your target image. The grip of joystick is approximately 1.5 times larger than previous model AW-RP50, realizing more stable operation.

Unit: mm(inches)

Flexible customization features

The controller is equipped with four user assignable buttons, to which up to eight functions[2] of your choice can be assigned. Each preset name can also be customized with a PC tool. These flexible features of the controller make it perfect for use in a wide range of environments, from lectures and corporate seminars to live streaming and broadcasting at amusement facilities.

## PoE[1] support/Advanced camera adjustment

PoE[1] support enables power supply and camera control to be delivered via a single ethernet cable. In addition to camera control operation, gamma, white balance and other color adjustment functions can be performed, making advanced camera adjustments possible.

*1: PoE is the abbreviation for Power over Ethernet. *2: Enable user button 5 through 8 by pressing the shift button.
